

SHUBHAM TIWARI

Senior Business Analyst | Requirements Engineering · Agile/Scrum · SQL & Power BI | SaaS, CRM & E-Commerce
+91 79852 11542 | shubhamtiwari0417@gmail.com | linkedin.com/in/shubhamtiwari-businessanalyst
Lucknow, Uttar Pradesh, India | Open to relocation: Gurugram/NCR, Noida, Bengaluru, Hyderabad, Pune, Ahmedabad or Remote

PROFESSIONAL SUMMARY

Senior Business Analyst with 6 years owning the requirements lifecycle end to end across SaaS, CRM implementation, and retail/e-commerce systems. Converts discovery workshops with client and internal stakeholders into BRD, FRD, SRS and FSD documentation, testable acceptance criteria, and full RTM traceability — carried through SIT/UAT to sign-off and hypercare. Pairs classic BA rigor with hands-on SQL and Power BI analysis, so specifications reach development buildable first time.

IMPACT SNAPSHOT

50+ implementations delivered • 95% on-time • 5% under budget • 30% churn reduction • \$120K+ revenue protected • 15-day cycle-time cut • 20% CSAT lift • 40 FTE hours returned monthly • 200 accounts governed

CORE COMPETENCIES

Requirements Engineering — BRD, FRD, SRS, FSD, RTM traceability; user stories and testable acceptance criteria; AS-IS/TO-BE mapping (Visio, BPMN); gap, root-cause and impact analysis; wireframes; change request management
Agile & Delivery Governance — Scrum (Scrum Master, integration track), sprint planning, backlog refinement, ceremonies and retrospectives; hybrid Agile-Waterfall SDLC; effort estimation, RAID/risk tracking, status communication
Quality & Testing — Test scenario and case review, SIT/UAT planning and sign-off, defect triage, post-launch hypercare, RTM coverage validation
Data & Analytics — SQL, Power BI, Zoho Analytics, advanced Excel, KPI and SLA definition
Platforms & Tools — REST API specification and testing (Postman), n8n, Deluge, Zoho CRM Plus, Freshworks CRM, Shopify, Amazon, Walmart, eBay, Etsy, TikTok Shop; Jira, Confluence, Visio, Lucidchart, MS Office

PROFESSIONAL EXPERIENCE

THREECOLTS — Lucknow, India | September 2024 – Present

SaaS holding company for e-commerce seller tools; acquired CEDCOSS Technologies in September 2024. Requirements owner across CRM, analytics, and automation.

Senior Business Analyst | September 2024 – Present

- **Reduced customer churn 30% and protected \$120K+ in at-risk recurring revenue** as requirements owner for ChurnGuard, an AI churn-risk detection agent — driving discovery with customer success and development leads, defining the five-signal scoring logic, and validating each signal against CRM and product-usage data in SQL before build began.
- **Returned 40 FTE hours per month and lifted CSAT 20%** by specifying an SLA-scoring engine that grades every customer interaction and self-generates its audit trail, validated through SIT/UAT and hypercare across a 50+ user rollout that went live with zero post-launch defects.
- **Standardized coverage across 200 high-value accounts** by designing a CRM account-ownership model spanning three teams — documenting assignment rules, escalation paths, and a two-tier CSM structure adopted as standard operating procedure.
- **Led the TikTok Shop marketplace integration to delivery on schedule and within scope** while serving as Scrum Master — running backlog refinement, sprint planning, release coordination, and retrospectives in Jira across development, QA, and design.
- **Consolidated fragmented manual reports into a single real-time view** for sales and leadership by owning requirements for a Shopify Plus seller analytics dashboard — agreeing KPI definitions with business owners, phasing scope across releases, authoring BRD/FRD, and securing UAT sign-off.

CEDCOSS TECHNOLOGIES PVT. LTD. (CedCommerce) — Lucknow, India | November 2020 – September 2024

E-commerce technology and marketplace-integration company. Progressed from delivery coordination into full business analysis ownership.

Business Analyst / Senior Project Coordinator | October 2023 – September 2024

- **Directed requirements for enterprise marketplace integrations across five platforms** (Amazon, Walmart, eBay, Etsy, Shopify), authoring BRD, FRD and SRS documentation and holding 100% RTM traceability from requirement through test case to client sign-off.
- **Improved pipeline visibility and conversion tracking for 100+ frontline agents** by redesigning the CRM sales workflow — lead scoring, staged pipelines, account hierarchies, and reporting dashboards.
- **Eliminated mid-sprint clarification requests across 5+ enterprise client engagements** by facilitating structured elicitation on each, then converting outcomes into acceptance-criteria-backed user stories that development estimated and built from directly.

Business Analyst / IT Project Coordinator | November 2020 – October 2023

- **Delivered 50+ e-commerce implementation projects at 95% on-time delivery and 5% below budget**, owning scope definition, workflow discovery, data-flow mapping, and go-live sequencing — with SIT/UAT validation, defect triage, and post-launch review on every release.
- **Cut quote-to-cash cycle time by 15 days** through an end-to-end AS-IS/TO-BE redesign — rationalizing approval gates, rebuilding the CRM workflow, and restructuring quotation and pricing logic.
- **Produced the complete requirements artifact set on each engagement** — AS-IS/TO-BE maps, wireframes, data-flow diagrams, and BRD/FRD/FSD documentation — enabling development teams to build without rework.

EDUCATION & CERTIFICATIONS

Bachelor of Computer Applications (BCA), Computer Science — College of Management Studies, Kanpur — CSJMU | 2020

Certifications: n8n Level 2 Automation (2025) · Postman API Fundamentals Student Expert (2025) · Building and Mapping User Stories (2024) · Jira Work Management Fundamentals (2024) · Confluence Fundamentals (2024) · Lean Six Sigma White Belt · PMI-PBA (in progress)
